We believe, as Dwight Eisenhower did, that Eisenhower Fellowships exists to inspire leaders around the world to challenge themselves, envision how they can effect positive change, engage others beyond their existing networks and collaborate with other like-minded leaders across national borders and regions to better the world around them.

Eisenhower Fellows and the positive impact they can have on their societies are at the heart of everything we do. We bring together innovative leaders from all fields and regions of the world, women and men of notable achievement who have the potential to do even more. We strive to ensure the professional, ethnic, racial, gender and geographic diversity of the Fellows and of the regions and nations where we operate.

Our mission begins with identifying outstanding ascendant, mid-career leaders who share President Eisenhower’s belief in the powerful possibilities of a more peaceful, prosperous and just world. We select Fellows who display the vision and passion to pursue concrete projects with real impact on their societies. We believe our work transcends national boundaries, linking outstanding international leaders with their counterparts in the United States to enhance international understanding and provide rich opportunities for collaboration within the influential Eisenhower Fellows global network.

Successful candidates for our program are leaders driven to advance their personal and professional growth who can articulate how they will use the fellowship to produce impactful change and who commit to lifelong engagement with the organization and its Fellows around the world. They apply what they learn from their meetings with peers and with experts in their respective fields to maximize their potential and produce sustained impact through a transformative fellowship experience.
Historic Leadership Transition

Marking a historic milestone in the life of Eisenhower Fellowships, hundreds of members of the EF global family converged on Philadelphia on May 16 and 17 to pay tribute to our outgoing Chairman, General Colin L. Powell, USA (Retired) and welcome his successor, former U.S. Secretary of Defense Robert M. Gates.

More than 415 invited guests, including some 160 Fellows from 43 countries, gathered at the National Constitution Center to honor General Powell in a gala celebratory dinner that featured a musical performance by students from the Philadelphia School for Creative and Performing Arts and speakers that included former Vice President Joe Biden, former Bermuda Premier John Swan, former Governor Christine Todd Whitman and Secretary Gates.

The General was also feted in video messages from late Presidents George W. Bush and Barack Obama, former National Security Adviser General Brent Scowcroft and former Secretaries of State Madeleine Albright, Condoleezza Rice, James A. Baker III and Henry Kissinger, Chairman Emeritus of EF. Another EF Chairman Emeritus, late President George H. W. Bush, sent a written message that was read by the master of ceremonies for the evening, veteran NPR and PBS News Hour correspondent Ray Suarez.

Fellows from the Fall 2016 Africa Program, the first regional program Africa in EF history dedicated exclusively to nations in Sub-Saharan Africa, presented General Powell with a beautiful glass sculpture in gratitude for his leadership and support. The emotional highlight of the evening was the unveiling of a mural that Philadelphia students from Olney High School created for General Powell with the City of Philadelphia’s renowned Mural Arts Program, headed by Eisenhower Fellow Jane Golden. The mural is now on display at the Olney Charter High School in North Philadelphia.

Secretary Gates officially became the ninth Chairman of EF the next morning at the Annual Meeting of the Board of Trustees, then met with Fellows from the 2018 Global Program and the 2017 USA and Zhi-Xing Programs in a wide-ranging seminar attended by more than 200 guests, including young leaders from the Philadelphia Military Academy.

That evening, more than 315 invited guests gathered as Secretary Gates presided over the 2018 Annual Awards Dinner at the Philadelphia Museum of Art, hosted by President Gail Harrity, an Eisenhower Fellow. Gail and Philadelphia Mayor James Kenney greeted guests at a pre-dinner cocktail reception punctuated by a musical performance from a group of Mummers, Philadelphia’s distinctive street performers whose annual New Year’s Day celebration is a local ritual.

Secretary Gates presented the 2018 Distinguished Fellow Award to Minister Mari Pangestu of Indonesia and the Eisenhower Medal of Leadership and Service to EF Trustees David and Susan Eisenhower for their distinguished professional careers and their lifelong work to advance the legacy of their grandfather, our namesake, President Dwight D. Eisenhower. Veteran NPR and ABC News correspondent Deborah Amos was the master of ceremonies.
In 2018, Eisenhower Fellowships (EF) provided fellowships to 55 outstanding international leaders; 24 Fellows participated in the spring Global Program and 21 Fellows participated in the fall Innovation program. Ten Saudi Fellows in our pilot Saudi Arabia Program completed their fellowship journeys after a successful four-week program of travel across the United States. This first program dedicated exclusively to Saudi Arabia drew 374 applicants who competed for 10 fellowships. Significantly, seven of the 10 Fellows selected were women.

The integration of USA and International Fellows has never been more robust. At the suggestion of one of our 2017 Fellows, EF implemented a mentorship program to better connect USA and international Fellows. Linking an incoming Fellow with an American Fellow with subject expertise in the travelling Fellow’s area of focus helped deepen the program experience and strengthened ties across the network. International Fellows attended events hosted by USA Fellows in all seven of EF’s USA hubs this year. In addition, USA Fellows in Washington and Austin, Texas also hosted gatherings for international Fellows.

A highlight of this new interaction came in the San Francisco Bay area in October, when nearly 60 international and American Eisenhower Fellows participated in a series of events, site visits, receptions and dinners focused on innovation. Mixing together 2018 Innovation Fellows, members of the Global Network Council, USA Fellows from the San Francisco hub and several Fellows from the 2014 Innovation Program, this EF contingent visited Google, Salesforce, Accenture and Tesla for exchanges of ideas with experts at those innovative companies. The site visits helped tie EF more closely to Silicon Valley, one of our objectives in opening a new hub in the San Francisco Bay area.

Zhi-Xing China Program

For the fourth consecutive year, in 2018 a cohort of USA Fellows traveled throughout China as part of the Zhi-Xing China Eisenhower Fellowship Program. The Zhi-Xing Program, launched in 2015, in partnership with the China Education Association for International Exchange doubled the size of the USA program, advancing EF’s strategic objective to expose more American leaders to the world beyond our shores. Nine American Fellows journeyed to China in this program last year.

The Zhi-Xing or Mandarin for “learning through travel” program is a fully-funded, four-week professional and leadership development program that features intensive cultural immersion, group sessions with Chinese and U.S. experts along with two weeks of individually-tailored travel and meetings in four to six Chinese cities.

The Zhi-Xing China builds on Eisenhower Fellowships’ 25-year history of professional exchange between the United States and China, and comes at a time when both countries play a predominant role in world affairs, thus enhancing the value of bilateral dialogue and understanding.

2018 Zhi-Xing China Fellows explore the Great Wall of China
Eisenhower Fellowships programmed a diverse group of 20 USA Fellows to 22 countries in Asia, Europe, Latin America, Africa and Oceania in 2018. For the first time in EF history, a USA Fellow traveled to Myanmar. These Fellows came from diverse professional backgrounds and explored key issues in disparate fields that included health care, fire safety, transportation technologies and cattle production.

Matt Kopac (USA ’18) and Mauro Rebelo (Brazil ’14) deepening global and USA Fellow connections in Rio de Janeiro
2018 was a landmark year of impactful convenings, conferences and forums for the EF Global Network.

The year started with EF President George de Lama and his wife Carrie Holt de Lama visiting six countries on a 21-day trip to Taiwan, Indonesia, Hong Kong, Sri Lanka, India and Turkey to meet with Fellows, Trustees, donors and other friends of EF.

In the process, they collected stories of impact from our Fellows and helped spread the word about Eisenhower Fellowships everywhere they went.
Later that year, at the invitation of Fellow Shahid Mahmud (Pakistan ‘01), George and Eisenhower Fellow Maria Tsehai (Tanzania ’16) spoke at the Leaders in Islamabad conference on global disruption, which brought together more than 600 corporate and business leaders, distinguished academicians, tech entrepreneurs, media figures, diplomats from various countries and senior Pakistani government officials. This visit was highlighted by a meeting with Pakistani President Mamnoon Hussain, who praised Eisenhower Fellowships for rendering valuable contributions to humanity in Pakistan and around the world. It was the first time a sitting President of Pakistan had ever hosted Eisenhower Fellows.

Closer to home, nearly 300,000 travelers from around the globe descended on Austin, Texas to partake in South by Southwest, a music, film and creative economy conference and festival. Stepping up to center stage were Eisenhower Fellows in full force. Jack Bienko (USA ’16), Cordell Carter (USA ’16), Chelsea Collier (USA ’16) and Nate Robinson (USA ’16) led a panel discussion that brought to light their experiences in China as Zhi-Xing Program participants in a session entitled “American Innovators in China.” The four Fellows discussed the ways in which the experience helped advance their career trajectories. 2018 USA Fellow William Hurley, better known as “whurley,” gave a keynote speech on quantum computing to an audience of 5,000 people. Josh Baer (USA ’15) hosted an estimated 20,000 guests at Capital Factory, the start-up accelerator hub that he founded in Austin to be the “center of gravity for entrepreneurs in Texas.” Chelsea Collier hosted several sessions through Digi.City, a platform supporting smart city technology that she founded as a direct result of her fellowship experience in China.

EF Day events across the globe took place in various formats. The Japan and the New Zealand chapters each hosted dinners. Supporting EF’s goal of cross-border collaboration, the Fellows from Vietnam welcomed the Fellows from Chinese Taipei for the first meeting of the two chapters in a joint celebration in Ho Chi Minh City. The Indonesian Fellows held a public event featuring young people in cooperation with the U.S. Embassy in Jakarta. Fellows Tri Mumpuni, Eka Sari Lorena and Alissa Wahid spoke alongside other speakers with expertise in crowdfunding and social entrepreneurship.

In October, EF hosted 110 guests from 31 countries in London for two dynamic days of thought-gathering focused on Women’s Leadership and European Migration. The programs included world-renowned global leaders such as former President Mary Robinson of Ireland, U.S. Federal District Judge Virginia Kendall and Baroness Nosheena Mobarik, a British Member of Parliament.
In keeping with its commitment to mentorship, EF invited 10 female youth leaders from nine countries to the Eisenhower Fellowships Youth Leaders Network. They were introduced at a formal reception hosted by the Embassy of Ireland, a highlight of the EF activities in London that week.

EF’s institutional and individual partners contribute financial and intellectual capital that is essential to our current impact and future promise. Our partners meet with staff to design and implement U.S. and overseas programs. Interaction with Fellows provides EF partners with valuable “on the ground” perspective, and often initiates ongoing relationships and collaboration.

For more information about partnership opportunities with Eisenhower Fellowships, contact: Carolyn M. Gretzinger, Senior Development Officer, cgretzinger@efworld.org

Maximizing Our Impact

Addressing our goal to collect and promote stories of real-world impact, EF created an impact blog on our website. Blog entries share success stories from Fellows who returned home and implemented ideas inspired by their Eisenhower Fellowships experience. As an organization, we have invested resources into collecting both quantitative and qualitative data to effectively measure our impact throughout the world. The inspirational stories in the impact blog comprise the qualitative component that complements the quantitative data.

In 2018, EF identified ways to further refine the project component of the fellowship experience. We developed written guidelines that clarify our expectations from our Fellows in crafting and implementing a project. In the opening seminar, midpoint retreat and closing seminar of each international program, we have included training modules to support Fellows in developing their project concepts and making actionable plans to implement them once they return home. Offering guidance to the Fellows at multiple points throughout the fellowship journey underscores EF’s emphasis on project outcomes. In this process, it has instilled confidence in Fellows that they can be successful in completing a project with a positive social impact within three years of their fellowship travels.

One year after Fellowship 80% of Fellows reported Fellowship had “Strong impact” on their personal and professional lives.

80%

Evaluation has become an increasingly integral component of programmatic activities, enabling EF to gauge its effectiveness in accomplishing desired objectives while continuously refining and improving its programs. As promised in last year’s business plan, EF produced a program impact evaluation study in 2018. The organization developed metrics to drive an independent, outside, data-driven evaluation of international and USA programs that will help EF assess its effectiveness, maximize its impact and better communicate the reach and relevance of our organization to external and internal audiences.
